

# CHOICE CREDITS PROGRAM

## Purchase now, use later

The best laid plans usually require more effort than anticipated to bring to fruition. That's why we created the Choice Credits Program – to provide a way to purchase credits for services before you even know you need them. This program lets you purchase credits upfront, allocating funds when you have them and giving you the flexibility to use them for future requirements.

The Choice Credits Program provides the flexibility to access experts, training and support when you need it. Credits can be applied for multiple uses: application development, training, conference registrations, on-site or custom technical support and more. The Choice Credits Program offers the option to purchase bundles from a GSA price list, or bundles are also available as a part of Enterprise Agreements.

### PLANNING AND MANAGEMENT

Your L3Harris account manager will work with you to determine the types of services you may need and the corresponding number of credits. Because credits do expire 12 months from the date of purchase, it is important to monitor and manage your credit balance. You can request a status of purchased and redeemed Choice Program credits at any point.

### ELIGIBILITY

Choice Credits Program customers are required to stay current on product maintenance during the period of their agreement. Standard maintenance is described at [www.L3HarrisGeospatial.com/Support/Maintenance](http://www.L3HarrisGeospatial.com/Support/Maintenance), and may be changed from time-to-time.
